THE POCKET EDITION.

Believing that the principal purpose in issuing a fraternity catalog is to publish the names and addresses of the members, so that they can be in touch with each other and keep alive fraternal enthusiasm, and being convinced that frequent editions giving the most important facts are more desirable than large biographical editions published at intervals of many years, the Phi Kappa Psi fraternity publishes this condensed or pocket edition of the catalog. It is intended that similar editions shall be published every year or two, or that supplements be printed, as the fraternity may decide, and that the larger biographical edition be published at the end of each decennial period.

The numeral following the name of every brother denotes the year of his initiation. The interrogation point has been placed after each address concerning which there is uncertainty; that is, when a circular sent to the latest known address has been returned. When no recent address is known, the brother is placed in the list of lost Phi Psis. It is earnestly hoped that every Phi Psi into whose hands this book falls will do all in his power to assist the editor in obtaining correct addresses for all brothers concerning whose addresses there is any doubt.

To every brother who has given information, to the publishers for their intelligent co-operation, and to his sister, without whose untiring work the completion of the catalog would not have been possible, the editor makes grateful acknowledgement.

GEORGE SMART, Editor.
